About Edu-Talent

Edu-Talent has been established with the vision of making learning an enriching and joyful experience for each and every child. Its founders come with decades of diverse experience and expertise from the field of education. Edu-Talent has been striving to promote scientific attitude through innovative activities and use of IT, in learning process that involve school students across the country.

Our Vision and Mission

At Edu-Talent, we believe in creating value in the educational process of a child. Our core Philosophy focuses on enriching the three C's, Creativity, Care and Competency essential for one's success in life. In most of the schools, Creativity and Care go unacknowledged. Competency by virtue gives the child an edge, but it is care and creativity, which ensures that they turn into responsible human beings. Equal emphasis on all the C's will ensure the child's performance not just in class room but also beyond.

Why Edu-Talent?

The key to having a large, exclusive scientific and IT / Electronics talent pool is seeking out, identifying young genius and providing them with a unique competitive platform. To further this cause Edu-Talent endeavours to:

- Identify and nurture future scientists, technologists and IT / Electronics talent at school level.
- Encourage students' participation in national / international science and IT/Electronics competitions/programmes/events.
- Infuse a healthy competitive spirit through reward based Contests/Olympiads.
- Bring about a transformation in the classroom approach to science and IT / Electronics to make it more interactive, practical and innovative.

Activities

All activities of Edu-Talent invariably aim at making learning an interesting and interactive process in which the learner is actually able to put his / her skills, memory, talent and knowledge to test.

For this Edu-Talent conducts workshops, seminars and Science / IT / Electronics / Mathematics / English competitions (**Global Olympiads**) for students of Class 1 to Class 10. The Edu-Talent Olympiads will be a highly motivating and rigorous aptitude testing platform with special and exclusive focus on Mathematics - mathematical creativity of children through Problem Solving, Physics, Chemistry, Biology, Mental Ability, Logical Reasoning, Analytical Skills IT / Electronics and English. Following Olympiads will be conducting during the academic year 2016 - 17 in all schools in India including government and aided schools.

Global Olympiads

Global English Olympiad - GEO

Edu-Talent's Global English Olympiad, a test of competence and proficiency in English. Edu-Talent recommends the competition for each and every student who is studying English as their language.

Global Cyber Olympiad - GCO

Global Cyber Olympiad, a test of competence and proficiency in computer science, Edu-Talent recommends the competition for each and every student who is studying computer as their subject in the school.

Global Math Olympiad - GMO

Edu-Talent's Global Maths Olympiad is a test of competence and proficiency in Mathematics.

Global Science Olympiad - GSO

Global Science Olympiad (GSO) is as much about creating awareness about Science by bringing in an element of challenge and competition as about inspiring the younger generation to enhance their knowledge about Science and to test their aptitude for taking up career in Science and applied Science in future.
