WORLD DAY AGAINST CHILD LABOUR

12TH JUNE 2016

*The International Labour Organisation's focus of the 2016 World Day Against Child Labour is on **Child Labour and Supply Chains**. Supply chains are the sequence of activities/processes involved in the production and distribution of a product. With globalization, supply chains have become increasingly complex. Child labour occurs largely in supply chains, where the work may be done in small workshops or homes, and often goes undetected by firms at the top of the chain. Inadequate education systems heighten these risks.*

The **Central Board of Secondary Education** looks towards joining hands with affiliated schools to raise awareness among students and their local community about the fact that, this violation of child rights is preventable, not inevitable. The best way to counter this social problem is through better understanding of its underlying causes, and addressing them at every opportunity.
