

Contests

1. Innovative optometric instruments

'Necessity has always been the mother of invention'. Who else is in better need than an optometrist to find diagnostic solutions for the complex ocular problems ahead of us? The dire need for innovative, cost effective instruments is ever increasing. Join us to showcase your ability in this path. Submit your proposals!

Guidelines:

Write a brief proposal on the following format and submit in 300 words

Purpose, Principle, Concept and Design.

- 1) The proposal can depict instruments either as models or in computerized format
- 2) It can also be an improvisation of already existing instruments serving the same purpose.
- 3) Please mention the Innovation in your model (could be its ease of use, reduced cost etc.) and Feasibility separately

Eligibility:

All registered participants are eligible.

Submissions should reach on or before July 10th 2016 12.00 noon to competitionsdrevm@gmail.com with the subject name "**Innovative Optometric Instruments**

EVM 2016"

2. Video contest

As primary eye care practitioners, optometrists actively involve themselves in creating awareness among the public about preventable and avoidable blindness. Let this video contest help to create awareness and education among public.

Guidelines:

Time duration should be 2 minutes or less.

- 1) Format : Mp4
- 2) The video should be related to awareness on Optometry or common ocular diseases. It should not promote any product.
- 3) The video should be original and should not infringe any copyright or any other rights

Eligibility:

All registered participants are eligible.

Submissions should reach on or before July 10th 2016 12.00 Noon to competitionsdrevm@gmail.com with the subject name "**Video contest EVM 2016**"
