### **Rules for Photography Competition**

#### **Introduction:**

Freedom of Expression is regarded as one of the fundamental aspects of individual liberty. And it is one of the basic elements for healthy and open minded democracy. The photography can be a strong medium of expression and tool in unearthing the socio legal issues prevalent in the society today. It facilitates the people to participate freely in the social, cultural, political and economic happenings of the country.

We believe that this event inculcates the habit of creating a record of the happenings and triggers legal curiosity among law students apart from their regular course. Further, it helps the participants to exhibit ideas and critical thinking through Photography skills which will enhance their legal knowledge. This will ultimately create a forum for the critical debate of issues arising from the historical, political, cultural and scientific fields.

**No of participants in each team:** One per team
