MOOT PROBLEM

1. Indiana, a developing country has approximately 35% of the population involved in agricultural activities. Indiana is rich in atomic mineral resources, especially Uranium. The Uranium ores are, to a great extent, found in the mineralized zone of 'Namro', declared as a 'Scheduled Area' under Panchayat (Extension of Scheduled Areas) Act, 1996', which has a total cover area of 57 sq. km. and falls within the 'Reserve Forest' of Swadeshi, in the state of Jalkhand. The reserve forest covers an area of 125 sq. km and is home to the several indigenous tribal communities. Their total population is around 5000.
2. These tribal communities derive their means of livelihood from the forest lands of Swadeshi by carrying out activities such as apiculture, gathering of herbs, flowers and fruits and collection of gum dust and other produce. Although Swadeshi is rich in atomic mineral resources, commercial exploitation of the same is not permitted, as Indiana took pride in the natural bio-diversity comprising of rare flora and fauna. Further, the land and the rocks of Swadeshi were considered as a sacred place by the indigenous tribes that resided therein.
3. Indiana faced an electricity-crisis in January 2016 which resulted in the closure of several industries, temporarily, and several workers were either laid off, and/or retrenched in accordance with law. On 26th May 2016, The 'All Indiana Labour Forum' approached the Supreme Court of Indiana, and sought to quash the lay-off of the employees, and also to direct the Government of Indiana [Hereinafter, Gol] to provide for a remedy to the power crisis, that has affected their right to livelihood, guaranteed under the Constitution of Indiana. The Court passed the following order that directed the Gol to initiate action so as to resolve the electricity crisis.

This Court hereby quashes the orders of the appropriate governments, and upon identifying that the power-crisis is the root cause for lay off and retrenchment, hereby directs the Gol to:

- a) Submit a report as to why there is power crisis.*
- b) Appoint a Specialized Agency, viz. Department of Atomic Energy to prepare a report about the alternative energy resources available in the country and provide in the report the means and ways as to how the power crises have to be met.*

4. The Department of Atomic Energy [Hereinafter, DoAE], on 11th July 2016, submitted a report; relevant portions of which is given below-

“.....In the given scenario, the production of electricity through the Mining and extraction of Uranium from the ores of Swadeshi is most Feasible...”

“.....The lands may be leased to UCIL and the Uranium Extraction Process can be suitably undertaken by the means of use of Leaching Process.....”

5. The Gol, on 20th August 2016, in light of the Report submitted by the Department of Atomic Energy leased an area of 57 sq. km, inclusive of the Scheduled Area, from the lands of Swadeshi, for a period of fifty years, to Uranium Corporation of India Limited [Hereinafter, UCIL], a fully owned entity of the DoAE, India.
6. In the months of August-September 2016, there was a protest that was undertaken by the indigenous communities alleging that the said mining activity would hinder their livelihood and peaceful existence in the forests of Swadeshi. Further, Swadeshi Suraksha Samiti [Hereinafter, SSS], a Non-Governmental Organization, protested that Uranium mill tailings retain about 85% of the original radioactivity of the ore, and it is very difficult to minimize releases of radioactive decay products such as Radium and Radon as well as heavy metals, given the developing economy of India.
7. On 16th December 2016, UCIL by way of a Tender Notification, sub-let the process of extraction of minerals to Rustom Uranium Corporation Private Limited [Hereinafter, RUC], which was registered under the Companies Act, 1956. This was by reason of it being the highest bidder. RUC was granted the lease on January 30th 2017. As per the agreement between the UCIL and RUC, the extracted minerals would be owned by UCIL, and the land is leased to RUC for a period of 30 Years, commencing from the date of grant of 'Environmental Clearance', by the 'Ministry of Environment and Forests, Government of India.
8. Further, the agreement provided that the output of RUC shall be given to UCIL, and payment for extraction of the same shall be made, by UCIL, at the rate prescribed by the 'Evaluation Committee', constituted by the DoAE. The Evaluation Committee shall give due recognition to the 'Pricing Strategy' evolved in consultation with technical and market experts.
9. The RUC applied for an Environmental Clearance after due compliance with the laws present. The Gram Panchayats in and around the vicinity of the forests of Swadeshi were consulted during the Public Hearing, held in respect of the Environmental

Clearance for carrying out mining operations. The Gram Panchayats did not raise any objection against the project. The Notification that provided for a Public Hearing of the tribal community, residing in Swadeshi was cancelled on the ground that the said lease-area was within the Reserved Forest and the property rights of the same, vested with the Government and as such a public hearing need not be there.

10. On 1st March 2017, a Conditional Environmental Clearance was granted for a period of 30 years (Annexure A). On 5th April 2017, RUC managed to get a Forest Clearance for carrying out the mining activities in the Reserve Forest Area. But the Company went on installing more plants than sanctioned by the Government. The tribal communities were not in favor of the project, they agitated, in vain, on grounds that they were to be displaced of the lands that were their homes and were also sacred to them.
11. SSS alleging that the rights of the tribal communities would be affected by mining activity and alleged that the Environmental Clearance that was granted was not in consonance with the objects of the Environment (Protection) Act, 1986 and the Forest Conservation Act, 1980, and thereon filed a Writ Petition before the Supreme Court of India, under Article 32 of the Constitution of India, on 14th July 2017. **SSS also argued that certain** plants were established illegally beyond the area. They also relied upon a study done by an independent scientific group and stated that the pollution levels have increased as a direct result of mining activities carried out. The tribal communities also filed a Writ Petition under Art.32 before the Hon'ble Supreme Court of India as their rights were also infringed.
12. The following assumptions are to be made by the Parties and the same shall not be rebutted:
 - i. The Constitution and legislations referred to is in tune with Indian law.
 - ii. The description of "Reserve Forest", is the same as under the Indian Forest Act 1927

ANNEXURE - A

The MOEF, grants the Environmental Clearance in accordance with "Environment Impact Assessment Notification". The Clearance is thereby granted to M/s Rustom Uranium Corporation Private Limited, for an annual production capacity of 1 million tons of Uranium Ore by use of the mechanized method, involving the Total Lease Area of 45 sq. Km., subject to the following conditions and environmental safeguards.

A. Specific Safeguards

- i. The Environment Clearance is subject to the grant of Forest Clearance, for grant of permission to work in the Reserve Forest Areas of SWADESHI.
- ii. The Project shall ensure that no natural watercourse, prevailing within the lease area, shall be obstructed due to mining activities.
- iii. The Project shall develop effective emergency response procedure to ensure appropriate Risk Management System in the Public Domain, if any, due to the Project.
- iv. The land losers shall be compensated under the relevant laws in force.
- v. RUC shall endeavour to provide for compassionate employment, to at least one adult member of each family of the Indigenous Tribes.
- vi. RUC shall not put up any permanent structures within the Reserve Forest area, other than the ones required for the core-mining activity.
- vii. RUC shall carry out the activity of compensatory afforestation for an area of 45 sq. Km.

General Conditions

- i. RUC shall contribute a sum of 2 percent of its average three years profits every year to the CAMPA Fund.
- ii. RUC shall allow the indigenous communities to access the forest for firewood, apiculture and such other livelihood rights in accordance to their customary practices.
- iii. Failure to comply with any of the conditions above may result in the withdrawal of this clearance and attract action under the provisions of Environment (Protection) Act, 1986.

An Appeal against this Environmental Clearance shall lie to the National Green Tribunal.
