

## About Us

Firefish is an education services company founded in 2008. We conduct national level Olympiad competitions for young learners in partnership with the Cambridge University Press. In addition to this, we provide other education services such as teacher training programs in partnership with state governments.

Cambridge University Press is part of the University of Cambridge. It furthers the University's mission by disseminating knowledge in the pursuit of education, learning and research at the highest international levels of excellence. Playing a leading role in today's global market place, Cambridge University Press has over 50 offices around the globe, and distributes its products to nearly every country in the world.

## Testimonials

Primary Olympiad was my child's first experience with an examination. We were very nervous as to how she would cope with the concept of giving a paper but she surprised us by saying she enjoyed herself. Not sure how she did but was a good experience and she wants to give it again next year.

**Ms. Vaishali Shetty, Parent of Aliya Shetty, Ecole Mondiale World School**

Primary Olympiad gives the opportunity to a child to compete with other children of different schools. It broadens the child's outlook, skills and the overall personality. The books of primary olympiad are awesome, my child reads them in his leisure time too. The sample papers, practice questions etc available online are very helpful in the study. Competitions like this should be conducted more often.

**Ms. Aradhana Sharma, Parent of Avyan Sharma, Scottish High School**

Olympiad reward and ranking system motivates young minds of our SES school to excel in their subjects of interest. It enhances their subject knowledge and has a scope for improvement.

**Ms. Shwetha Sumanth, Principal of SES Shanthinikethana School, Bangalore**

It was extremely nice experience because it enables kids to learn and comprehend stories at a very tender age, increases vocabulary and lot more. Besides developing a competitive spirit. Moreover it had a great impact on language skills. It provided a great opportunity for students to learn grammar in a simple way at a very young age which was not possible earlier. This exam should be continued and made compulsory for all the students looking at the benefits a child receives.

**Ms. Asiya Sajid Kazi, Parent of Munazza Sajid Kazi, M.S.Naik School, Ratnagiri**

“The Primary Olympiad exams help to open-up the minds and think out of box. This has motivated them to perform better in their academics also. This improves their mental ability.”

**Ms. B.M.Roopa Muralikrishna**  
Olympiad Coordinator,  
Podar International School, Bangalore.

The Primary Olympiad is conducted by Firefish Networks in collaboration with the Cambridge University Press. Assessment is conducted by subject matter experts from Firefish Networks.

### About the Primary Olympiad

The Primary Olympiad consists of the English, Maths and Science Olympiads. It is a national level certification exams and competitions for young learners.

- ✓ The English Olympiad focuses on spelling and grammar. Enrolled students receive a spelling book, a grammar book and a multi skill book as preparatory materials.
- ✓ The Maths Olympiad focuses on arithmetic and geometry. Enrolled students receive a maths book and an activity book as preparatory materials.
- ✓ The Science Olympiad focuses on science and environmental studies. Enrolled students receive a science book and an environmental studies book as preparatory materials.

### Benefit for Students

- ✓ Registered students will receive an individual log in Id and password to our online LMS (Learning Management System). This will help the students better prepare themselves for the exams. The answer keys to the books are also available here. There are also additional topic wise tests for students.
- ✓ All students receive participation certificates and scorecards. Scorecards provide a detailed breakdown by competency allowing the child to work on weak areas in the future. It also provides the rank of the child in the school and standing of the child nationally.
- ✓ Cash scholarship prizes for toppers securing highest marks in the Primary Olympiad (based on the total of English, Maths and Science Olympiad exams) at each level.

### Preparation and Materials

The written competitive exams are based on the study material given to the students as described below. The books are aligned with the school curriculum. Students can therefore use the provided books as additional practice materials for topics in their school curriculum. Sample papers will be made available in mid July 2015.
