Monochrome –Gold	Monochrome- Silver	Monochrome- Bronze
Colour- Gold	Colour- Silver	Colour- Bronze
Photo Travel- Gold	Photo travel- Silver	Photo travel- Bronze

5 Certificate of merit in each section

- **Monochrome photography** is **photography** where the image produced has a single hue, rather than recording the colors of the object that was photographed. It includes all forms of **black-and-white photography**, which produce images containing tones of grey ranging from black to white.
- **Colour** in photography could definitely be seen as the most important factor. It can create mood, emotion, warmth, coldness and much more. Colour in an image can also be imperative to the narrative of the image. For example if the image is of a warm beach then warm colours in the image can emphasize the narrative of this.
- **Travel photo** as an image that expresses the feeling of a time and place, portrays a land, its people, or a culture in its natural state, and has no geographical limitations.
