Web Circular

To,
All Heads of Institutes,
Conducting Diploma in Engineering /Technology,
(All MSBTE Affiliated Polytechnics).

Sub:-Submission of projects for MSBTE Project Competition 2015-16.

Ref:- Web Circular No. MSBTE/D-55/Proj. Comp/2015-16/7951,dtd.8/12/2015.

With reference to the above, the MSBTE Project Competitions for 2015-16 are scheduled to be held between 08th, March-2016 to 15th, March-2016.

It has been observed from previous Project Competitions that projects displayed at the competitions are repetitive. This reduces the morale of the participating students. Hence, all the institute heads and project guides need to submit new innovative projects that showcase students' talent and creativity.

The list of projects that have been presented at the earlier MSBTE Project Competitions are herewith attached as Annexure. All Head of Institutes and Project guides should note that the project to be selected and sent as their institute entry to the Project Competitions should not be from the annexed list.

(Dr. Vinod M. Mohitkar)

Sr. No	Project Title		
1	4x speed bicycle		
2	Development of eco-friendly prime mover for agricultural use		
3	Gas recovery machine		
4	The multipurpose hydraulic machine		
5	Solar operated air compressor		
6	Solar energy tutor		
7	Manually operated floor cleaning machine		
8	Design and fabrication of eco-friendly refrigerator		
9	Modification in knapsack sprayer		
10	Three axis pneumatic modern trailers		
11	Automatic fire safety system		
12	Bicycle operated water pump		
13	Reverse trike - the three wheeled car		
14	Dc operated automatic jack		
15	Line follower		
16	Online examination on programming languages		
17	Voice user interface system		
18	Message reader for blind people		
19	Employee payroll system		
21	Control system & automation of power grid Patient monitoring system		
22	Fire extungish by sensing element		
23	Automatic switching of industrial lightening		
24	Power theft protection		
25	Wireless power transfer		
26	Microcontroller based wind energy meter		
27	Rf multi devices wireless control system		
28	Gas leak detection over gsm network		
29	Biomedical monitoring system		
30	Short message service based water level monitoring		
31	Using gsm		
32	Bridge fault detection		
33	Cell phone operated land rover		
34	Gps & gsm based location tracker		
35	Avenort		
36	Solar conventional tower		
37	Robotic arm with automatic object detection by image processing		
38	Speed control of dc and ac motor by using pwm 4-4		
39	Channel rf		
40	Speed checker for highways		
41	Automatic college bell		
42	Automatic water level indicator using 7-segment		
43	Rf control on / off switch		
44	Automatic car vehicle parking system		
45	Ievm by using rfid cards		
46	Multi-spindle mixing machine		
47	Automatic pallet carrier for small workshop		
48	Advanced mulchlayer machine		
49	MSRTC Pass Management System		
50	Hotel automation		
51	Modern vacuum engine		
52	Supercharged 4 stroke S. I. Engine		
53	Heat recovery device		
54	Online college admission system(ecap)		
55	Eco friendly water hybrid bike		
56	Hydraulic Design Of Swimming Pool With Safety		
57	Look based trendy garment with accessories from waste materials		
58	American Sign Language Recognition		

59	Composite tiles from waste material (fly ash).
60	Automation of universal testing machine
61	Full Color RGB LED Display on Microcontroller Based
62	Pneumatic vehicle —
63	Modified Polymer Concrete Comparative Study with Normal Concrete
64	Design And Development Of Inbuilt Hydraulic Jack System
65	Base Isolation Technology
66	Electricity Generation through hand operated door
67	Safety Hand Guard for press Machine
68	Chips Making machine
69	OBTRAC-On Line/Sms Booking Of Telecom Requirement & Completion Of The Same
70	Automatic Stamping Machine
71	Green house parameter measurement and display
72	Valve lapping machine
73	Agro-Waste Extrusion Best from waste
74	Safety Guard for Blind
75	Bluetooth Control for PC and Hardware
76	Road Divider Based Power Generation Using Wind Mill
77	Automatic Image and Video Annotation
78	Injection Molding Robotics Arm
79	
80	Openhydro Technology Coin Based Mobile Charger, Sms Sender and calling service Machine
81	Pneumatic Brick Making Machine
82	Laser Communication
83	
84	Wireless Electricity Unmaned Ground Vehicle
85	
86	Farm Ville Security (Scada for Agricultural Development)
87	Intelligent Gadget for Bikers Multi Purpose selender Application
88	Multi Purpose calender Application Micro Controller Based Intelligent Power Saving System
89	Crime Handling System
90	PLC and Automation
91	Pressure Based Voltage Genreation for Battery Charging
92	Embedded Based Ghat Road Safety Using Rfid
93	Reforms in Development Control Rules
93	Neural network Based Voice- Enabled Home Security System
95	Comparative Analysis of Dot Shape and screen frequency on print characteristics in offset Printing
96	E-Bin, Electronic Cleaning Meachine
97	Radio Telemetry Based Intelligent Bike Helmet
98	E-Crime Reporting
99	Near Dry Machining
100	Artificial Oxygen Tree
101	Anti Piracy Software for Intellectual Property
102	Universal Component Tester
103	Gearless Power Transmission In Right Angle
104	Smart Helmet
105	Model of Stirling Engine
106	Optical Character Recognition
107	Accelerometer Based Engine Turn Off of a falling bike
107	Microcontroller Based farming Section
109	Mobile Charger Using Simple Dc Motor
110	Adjustable Torque Spring Ball Clutch
111	Rfid Based Toll pay System
111	Kild Dasod Toll pay Dystolii
